INTRODUCTION

The Secretary of State and Registrar General of Canada administers legislation relating to companies, patents of invention, trade marks, copyrights, industrial designs, timber marking, governmental and parliamentary translations, boards of trade, the registration of trade unions, public officers and public documents.

The Secretary of State is the channel of communication with the Governor General and, through him, with the Sovereign concerning various matters, such as decorations and other subjects related to the exercise of the royal prerogative, and is responsible for the preparation and tabling of certain returns in Parliament.

The Registrar General is the custodian of the Great Seal of Canada and of a Privy Seal of the Governor General.

The Decorations Committee and the Committee on the use of Parliament Hill and the National War Memorial report to the Secretary of State. State ceremonial, decorations and precedence, including publication of the Guide to Relative Precedence at Ottawa, are amongst the variety of functions entrusted to the Department of the Secretary of State.

The staff of the department is headed by the Under Secretary of State and Deputy Registrar General of Canada, who is also Deputy Custodian of Enemy Property. Other officers are the directors of the branches enumerated below, three of whom have statutory designations, namely the Commissioner of Patents, the Registrar of Trade Marks, and the Superintendent of the Translation Bureau.

The functions of the department are carried out by the following branches: Administration and Registration Branch, Companies and Corporations Branch, Patent and Copyright Office, Protocol Branch, Trade Marks Office and Translation Bureau. The activities of these branches, in that order, are outlined in this report.

The Secretary of State is Custodian of Enemy Property and as such administers legislation relative to wartime trading with the enemy. The operations of the Office of the Custodian of Enemy Property are dealt with in a separate report tabled in Parliament annually by the Secretary of State.

The Secretary of State, in addition, administers the Department of Public Printing and Stationery and is the spokesman in the Privy Council, Cabinet and Parliament of the Civil Service Commission, the Chief Electoral Officer, the Canadian Broadcasting Corporation and the Board of Broadcast Governors. However, the present report covers only the operations of the Department of the Secretary of State.

LIBRARY

This library was formed in 1904. Its contents were reviewed in 1953, restricting them almost exclusively to legal volumes.

The following collections are presently in the Library:

The Statutes of Canada, the Provinces and the United Kingdom; The Canada Gazette; the London Gazette; Journals and Debates of the Senate and the House of Commons;

Such Canadian Law Reports as Supreme Court, Exchequer Court, Dominion Law Reports, Western Weekly Report, Canadian Annual Digest, Canadian Abridgments, Canadian Encyclopaedic Digest, Ontario Reports;

Such United Kingdom Law Reports as Judicial Committee of the Privy Council Appeal Cases, Chancery Division, Probate Division, Queen's Bench Division, Weekly Law Reports;

In the miscellaneous category such items as Encyclopaedias, Biographies, Year Books and Directories.

During the past year, 5,673 publications were received, recorded and shelved. The departmental annual report for 1961-62 was distributed to 67 government departments and agencies. The customary searches, dealing with orders in council, records of appointments, proclamations, statutes, regulations, historical data, biographies, etc., were made for members of this and other departments. Approximately 1,087 books were loaned and 2,430 volumes were consulted.

COMPANIES AND CORPORATIONS BRANCH

Under the Companies Act

Letters patent were granted incorporating 788 companies under Part I and 64 corporations without share capital under Part II.

Supplementary letters patent were granted to 679 existing companies and to 24 existing corporations without share capital; 8 certificates were issued to existing companies increasing the amount of consideration to be received for the issuance of shares without nominal or par value.

Pursuant to the provisions of Part IV, 2 licences were issued to foreign mining companies to carry on mining operations in the Northwest Territories and in the Yukon Territory.

The number of documents entered on the Register of Mortgages and Charges pursuant to the provisions of sections 66 and 68 was 148.

The number of annual summaries submitted under section 125 was 14,456.

Certificates of acceptance of surrender of charters were issued dissolving 253 companies under section 29 and 63 charters were returned for cancellation. Advice was received to the effect that 38 companies had gone into bankruptcy or were in process of liquidation.

The Companies and Corporations Branch maintains a complete record of the names of all Canadian companies incorporated under or by federal and provincial statutes. There were 4,339 searches undertaken by the Name Search Division, of which 3,903 were to determine the availability of suggested corporate names and 436 were inquiries as to the existence or otherwise of companies under specific names.

Under the Boards of Trade Act

There were 17 boards of trade registered, 12 orders in council issued changing the names of boards of trade and 2 orders in council issued changing the boundaries of existing boards of trade.

PATENT AND COPYRIGHT OFFICE

Report of the Commissioner of Patents for the fiscal year ended March 31, 1963.

INTRODUCTION

This report is made pursuant to the requirement of section 27 of the Patent Act, (Chapter 203, R.S.C. 1952 as amended by Chapter 19, and Chapter 40, section 15, 2-3 Eliz. II, 1953-54). The tables included herein contain information concerning the transactions of the Office, patent, copyright, industrial design, and timber mark fees, total receipts and expenditures, trend of invention, residence of inventors for applications filed and residence of inventors for patents granted. Examination and disposal of a patent application by the Office in accordance with the Act and Regulations entail a search for novelty, consideration of inventive subject matter, a decision as to patentability and also verification of compliance with procedural requirements. The statute provides for the grant of a seventeen year exclusive right to the inventor (or his successor in title) in return for his disclosing and making available to the public the product of his inventive genius and labours. It also contains provisions to safeguard the public interest against possible abuses of patent rights.

GENERAL BUSINESS

The general business of the Office shows an increase compared with that of the previous year.

Applications for patents totalled 26,409, an increase of 962, or about 3½ percent. This is an all time record for the Office. Of the total number of applications filed, 20,243 claimed priority of filing date under the International Convention for the Protection of Industrial Property. This is an increase of 102 or about .5 percent.

Allowances of applications totalled 23,233, an increase of 1,409 or 6.46 percent over last year. There were 32,914 reports on patentability, an increase of 1,785 over last year. The allowances and reports, being the total number of applications acted on by the Examiners, amounted to 56,147, an increase of 3,194 over the preceding year. During the year 2,904 applications became abandoned through rejection for non-patentability or failure of the applicant to continue prosecution. There were 21,225 patents issued.

The number of deeds entered in the register of assignments was 24,180 an increase of 19 over last year's record breaking total.

Copies of specifications, drawings and other patent documents to the number of 9,706 were made.

Copyright applications numbered 7,318, an increase of 10% over last year and there were 7,279 registrations made, an increase of 12% over last year. Industrial design applications amounted to 892 and 788 designs were registered which represent increases of 19% and 15% respectively; 252 design registrations were renewed.

The following tables show, respectively, the transactions of the Patent Branch and of the Copyright and Industrial Design Branch for the last ten year period.

The fees from all sources amounted to \$1,953,395.62, an increase of \$65,797.15 from the preceding year.

Receipts from the Patent Branch totalled \$1,922,250.42. This is \$63,285.49 more than last year.

The sale of printed copies brought in a revenue of \$158,736.91.

Copyright Branch Receipts were \$31,145.20

The total expenditure was \$2,273,388.39.

PATENT GRANTS

There were 21,225 patents granted. Of this total 21,199 were issued for the full term of seventeen years and 25 were reissued under section 50 of the Act for the unexpired term of seventeen years for which the original patents were granted. Under section 28A, one patent was issued.

Patents issued to assignees of the whole interest totalled 17,740, jointly to inventors and assignees of part interest 251 and to inventors or legal representatives 3,234.

The number of patents issued to companies was 17,616, to individuals 3,510 and to companies and individuals jointly 99.

Patents where invention was claimed to have been made by two or more inventors totalled 7,112 and by one inventor 14,113.

Of the total, 78 patents were issued to female inventors, to male and female inventors jointly 120, and to male inventors 21,027.

There were 1,682 patents granted to Canadian citizens or companies and 19,543 to patentees who were non-residents of Canada.

There were 40 patents issued subject to the Public Servants Inventions Act.

FORFEITURES, RESTORATIONS AND REINSTATEMENTS

Due to failure to pay the final fee within the period required by section 75, a total of 803 allowed applications became forfeited. Upon payment of restoration and final fees 241 forfeited applications were restored. Of the applications that had lapsed through failure to complete the formal papers or prosecute within the time provided by section 32, reinstatements were allowed in respect of 93.

REGISTER OF PATENT AGENTS

Under the provisions of section 15 of the Patent Act and the Rules under the Patent Act, the names of 62 agents were added to the Register. By reason of failure to comply with rule 144, the names of 42 patent agents were removed from the Register. A qualifying examination, under rule 143 was held at Edmonton, Montreal, Ottawa, Toronto, Winnipeg and Vancouver on October 22 and 23, 1962. Twenty-seven candidates tried the examination and ten were successful. At the close of the year, the names of 1,298 patent agents and patent attorneys appeared on the Register.

PATENT OFFICE RECORD

Pursuant to section 27 of the Patent Act, which requires the publication of a list of all patents granted, the official journal of the Office, The Canadian Patent Office Record, was published on Tuesday of each week. Publication was made in each issue of the principal drawings and claims of patents granted on the day of publication, together with notices and other actions under the Act.

The Office continues to exchange the "Record" for the official journals, indexes and reports on patents, copyrights and designs from patent offices in Australia, Austria, Belgium, Egypt, France, Germany, Great Britain, India, Ireland, Italy, Japan, Korea, Mexico, The Netherlands, New Zealand, Norway, Pakistan, Republic of South Africa, Sweden, Switzerland, and the United States of America.

The "Record" was also exchanged for 14 scientific periodicals and trade journals for the use of the Office.

PATENT PRINTING

The Department of Public Printing and Stationery printed 22,493 patents during the year for the Office. This figure includes 214 reprints.

During the year, as was indicated in last year's Report, all currently issuing patents were printed by the newly inaugurated "Micro Copy Flow" process.

In order to ensure that the "copy" supplied to the printers may result in printed patents of high quality, several amendments were made to the Patent Rules and the Office took other steps to achieve this result.

The new process has now been in operation for a full year and the quality of the reproduction is very satisfactory. In addition a saving of approximately \$400,000.00 has been effected through it. The bulk of each patent has increased due to the fact that we are reproducing page for page from the original copy, but the cost of the extra storage space required will be negligible compared to the savings effected.

PATENT OFFICE LIBRARY

During the year, 2,643 volumes were added to the Library. Copies of current patent issues were received regularly from Australia, Austria, Belgium, Egypt, France, Germany, Great Britain, Italy, Korea, The Netherlands, Pakistan, Sweden, Switzerland, and the United States of America. In addition, patent and copyright journals, indexes and reports were received from the countries named in the paragraph entitled Patent Office Record above and from Colombia, Czechoslovakia and Yugoslavia.

The Patent Office Library now contains copies of patents of the following countries from the dates given to the present date, namely: Great Britain from the year 1617, the United States of America from 1836, France from 1902, Italy from 1925, Australia from 1926, Sweden from 1947, The Netherlands from 1948, Switzerland from 1949, Austria from 1949, Belgium from 1950, Pakistan from 1959, Egypt from 1960, Korea from 1962, and Germany from 1962. The Library also contains printed copies of Canadian patents from January 1, 1948, medicine patents of France from January 4, 1962 and plant patents of the United States of America from No. 1 of August 1, 1931 to No. 2,243 of March 26, 1963.

All the United States patents from 1934 to date are segregated according to the classification in force at the time of issue of the individual patents.

The Patent Office Library contains 34,941 volumes in all.

MICROFILMING

During the year 121,844 assignment documents were microfilmed. This includes assignment No. 26,000 to assignment No. 147,843, inclusive, with a total of approximately 365,532 sheets.

Also microfilmed during the year were the Exemplifications of patents No. 543,600, to 639,599, inclusive, a total of 96,000 sheets.

STAFF

During the year 19 Patent Examiners were appointed. Ten Examiners resigned their positions. The number of Examiners' positions filled at the end of the year was 128, including the Technical Officers.

The total number of employees in the Patent and Copyright Office on March 31, 1963 was 323.

PROTOCOL BRANCH

The Branch dealt with a number of applications requesting royal patronage in the form of permission to use the names of the Queen and other members of the Royal Family, and the prefix "royal". Arrangements were made for congratulatory messages from the Sovereign for 719 sixtieth wedding anniversaries and 110 one hundredth birthday anniversaries.

The Queen has adopted a new Personal Flag for use when Her Majesty is in Canada in the same manner as the Royal Standard which it supersedes. It consists of a flag of the shield of the Arms of Canada charged in the centre with Her Majesty's own device, namely on a blue field the letter "E" surmounted with a royal crown both in gold encircled by a chaplet of roses in gold.

Requests for recognition of acts of bravery by the award of decorations by Her Majesty the Queen were investigated and submitted to the Decorations Committee. Of the number of submissions received, the Secretary of State recommended and the Queen approved the award of decorations to two Canadian civilians, listed hereunder with the address and date of publication in the Canada Gazette:

Administrative and clerical assistance in connection with these awards and with related matters was given to the Decorations Committee.

The usual arrangements for the printing and distribution of the Speech from the Throne were made for the opening of the first session of the 25th Parliament.

The Secretary of State granted permission for 13 ceremonies held on Parliament Hill or at the National War Memorial.

The Protocol Branch assisted in the arrangements made by the Government Hospitality Committee for the visits to Canada of Queen Elizabeth the Queen Mother, Her Royal Highness the Princess Royal, His Royal Highness The Duke of Edinburgh and other distinguished visitors, as well as the arrangements for the Ministerial Meeting of NATO which is to be held in Ottawa in May, 1963.

Plans co-ordinated by the Protocol Branch for the annual celebration on Parliament Hill of Dominion Day were approved by the Secretary of State.

The customary arrangements were made from time to time on the occasion of applications received by the Secretary of State from lieutenant-governors for leave of absence from their provinces.

The Guide to Relative Precedence at Ottawa was revised, printed and distributed.

The usual assistance was given in response to numerous written and verbal enquiries concerning aspects of protocol such as precedence, ceremonial, hospitality, styles of address, the wearing of decorations, use of royal photographs, flags and armorial bearings, the proposing of toasts and other related subjects.

The Branch dealt with requests for the authentication of 44 documents by the Governor General.

Statutes of the provinces received by the Secretary of State were forwarded to the Department of Justice under section 90 of the British North America Act.

The Branch maintained a limited newspaper clipping service for the department.

The Protocol Branch compiled and edited the annual report of the Secretary of State.

TRANSLATION BUREAU

Parliamentary and Legal Translations

Translation was made by the respective divisions of the official report of the House of Commons Debates, which covered 6,324 pages, the report of the Senate Debates, comprising 1,126 pages, the proceedings of the standing and special committees of both Houses, and the Estimates.

The Law Division translated 750 public and private bills together with their explanatory notes and indexes.

The Bureau's Privy Council Division, apart from the day-to-day translation of orders, proclamations, regulations implementing various acts, and indexes, was responsible for translating international conventions and agreements and many legal documents for the Privy Council. In addition, the Division classified regulations, revised texts of regulations translated by other divisions and handled Treasury Board minutes, special orders and other departmental documents. The Division is responsible for an increasing volume of translation for the Emergency Measures Organization.

The parliamentary divisions also handled translations for other government agencies and commissions.

There is an increasing demand for the services of the Bureau's interpreters for parliamentary committees. At the request of various departments, interpreters were seconded for a number of conferences, namely, The Colombo Plan Conference in Australia, the Preparatory Conference on Meteorology in Toronto, the preliminary discussions for the Conference on Labour Rationalization in Ottawa, the Labour Survey Conference in Montreal, the World Conference on Agricultural Meteorology in Toronto, the SACLANT Conference held at Norfolk, Virginia, The Advisory Council on Physical Health and Amateur Sports in Ottawa, the Norris Commission, and for certain hearings of the Board of Broadcast Governors. The Translation Bureau continued to train candidates for the interpreters' pool. When not otherwise occupied, the interpreters assist the translators in their regular work.

Departmental Translations

The volume of work of the departmental divisions continued to expand. Nevertheless, it was possible in some cases, for instance in the case of the Canada Year Book, to reduce the time lag between the publication of the English and French versions. Versions in both languages are frequently issued simultaneously. In this regard, particular mention should be made of the book entitled *The Queen's Choice* and the reports of Royal Commissions.

Among the more important works translated by the divisions are *The Saint Lawrence River Pilot*, *The Murre*, the *Hand Book for Inspectors of Weights and Measures*, the Glasco Commission Report and the working papers for the Conference on Resources.

Foreign Languages

The Foreign Languages Division continued to be called upon to translate a great variety of material from 40 languages into English, and from English into some 15 languages.

As a result of inter-governmental scientific exchange arrangements, much of this material, chiefly Russian and German texts, was of a highly technical or scientific nature. All translations of this type are passed on to the National Research Council which in turn forwards them to the Office of Technical Services of the United States Department of Commerce. The latter lists them in its semi-monthly publication *Technical Translations* and sells them at cost to all interested persons throughout the world.

Canada's export drive during the past year required a large amount of promotional and commercial material to be translated into the German, Dutch, Spanish, Italian and Scandinavian languages, while this country's membership in NATO called for the translation of an abundant quantity of foreign military documentation into English.

As usual, the Division translated numerous inter-governmental communications, international agreements and documents relating to immigration together with legal documents submitted in support of pension claims filed by Canadians of foreign birth.

Co-operation with Other Agencies

The Bureau's staff was called upon to assist other government agencies, and the Civil Service Commission in particular, in marking translation examination papers and reviewing candidates' records in promotional competitions. Assistance was also given to various departmental committees such as the Toponymy Division, Department of Mines and Technical Surveys.

Terminology Service

During the year the Terminology Service issued a number of terminological bulletins and others are in the making at the present time.

The Service keeps in touch with many similar bodies abroad and particularly with international organizations from which it receives highly useful vocabularies and terminological lists in exchange for its own. The Service co-operates with, among others, the *Comité d'étude des termes techniques français* of Paris, with which it exchanges information.

Refresher Courses

The Translation Bureau has organized the refresher courses for beginners on a systematic basis.
